W. R. Harper informed a Herald reporter Tuesday that his department store did the heaviest business last Saturday that it had done in any one day since it was started. This surely does not bear out the rumor that Alliance is troubled with "hard times".

A blighted calf is a boomerang, says a writer in an exchange, meaning that a calf should have good care and feed while it is a calf—if ever it has to rough it, give it a start the first year and it can then do a better job roughing it if it comes to that. This does not mean that the calf should run with the cow and then have two cows to milk later, but rather that it should have good care and good feed. The mother milk course is best, but even with that

the calf should have care, and without it more care and the best substitute.

The Herald enjoyed a fraternal call from him Tuesday.

Ormstead, of Vienna, all living in Castlewood county, South Dakota, were here last Wednesday to inspect the Box Butte county court house with a view of erecting one of the same construction in their county, these men being the county commissioners from that place. They were well pleased with our building, and it is very probable that their building will be modeled along the same lines.

While working in his tin shop Monday, C. A. Newberry suffered the loss of the little finger on his left hand. The workmen were finishing a large tank, and Mr. Newberry was assisting them when the tank slipped and came down full weight on his finger, smashing it so badly that it was necessary to have it amputated at the first joint. Had his hand been three inches further, every finger would have been smashed. The wound is healing nicely, and he will soon be at his accustomed place, but minus one digit.

Walter Scott passed through Alliance today on his return to his home at Canton from Russell, Iowa, where he had been called by the serious illness of his mother. At the time of his departure from Russell she was not much improved, and slight hopes are entertained for her recovery.

The musical program, "Eugene Joe", rendered at the Baptist church last Sunday, was one of the best of its nature ever heard by Alliance people. It is of English origin, and was brought here by Mrs. C. H. Fuller. Miss Grace Spacht was the accompanist, and her work is especially to be commended. Mrs. E. G. Laing rendered a splendid reading, displaying her usual exceptional talent in this line.

The annual roll call and business meeting of the Baptist church was held at the church last evening, new officers being elected for the ensuing year at that time. C. H. Fuller was elected clerk, Mrs. H. R. Beans, financial secretary, and A. H. Robin, treasurer, in addition to the board of trustees. The society will hold their regular weekly meeting with Mrs. Vermillion at 2:30 on that day.

At least the first weather prediction made by the government and forecasted by the flag above the Commercial Club rooms was correct. Monday was a fair day, but the blue flag went up, denoting that Tuesday would be accompanied by rain or snow. Early Tuesday morning the prediction was carried out, and a light rain fell all day. The same weather conditions have prevailed since that time, and as the blue flag is being displayed again today it appears that tomorrow will not show much improvement.

The Ford is lighter than any other car of its size and power. Yet stronger, sturdier, longer lasting. Vanadium steel, that's why. Vanadium is the hardest, strongest, toughest steel made. It is the only steel that is hard and tough at the same time. It is the highest priced steel that is used in automobile construction. Yet the Ford is very low in price. Its quality, terms, price and small cost of operation and upkeep, less than two cents a mile, have made it the universal necessity in town and country. Buyers will share in profits if we sell at retail 300,000 new Ford cars between August 1914 and August 1915.
